But the solution is to go to this folder: C:\Users\[user]\AppData\Local\Programs\Microsoft\ And delete the folder named "Microsoft Silvered Ribbon Debugging". A: I had the same issue and solved it using Easy Screen Recorder. For installation simply do this 1.) Press and Hold Windows key + Print Screen key + Power Button 2.) Open Easy Screen Recorder 3.) On the left side menu, select "Save as" 4.) Rename the file to ".scr" or any name of your choice 5.) Now double click on the "scr" file. 6.) A window popup and ask "Save file to your computer?" Just select "save file to your computer" and that's it! You can download here : A: I had the same problem with Microsoft PowerPoint. The solution to this is to go to my installed folder, C:\Program Files\Common Files\Microsoft Shared\Presentation Slides\ and delete the item named version.slide. This solved my issue and I was able to open up my new created presentation again. Hope it helps anyone, take care. Aging and memory: identification of olfactory bulb lesions using fiber tracking and diffusion tensor imaging. Magnetic resonance imaging, including fiber tracking and diffusion tensor imaging, is becoming an important tool in the assessment of aging processes and detection of neurodegenerative diseases. The purpose of this study was to investigate whether fiber tracking and diffusion tensor imaging can be used to accurately detect olfactory bulb lesions. Fourteen subjects were selected, according to olfactory function tests, as having either a smell disorder or anosmia. Imaging data were collected on a 1.5-T MRI scanner. Fiber tracking was run using an automated software program. Mean diffusivity
