WHERE [TempTable].[Ticket No] = (CASE [Schedule].[Allocated Date] WHEN @AllocatedDate THEN @AllocatedTicketNo ELSE [Schedule].AllocatedDate END) ... It can't be inserted into the Where clause as it will need to be different for each row. A: If you always want to use a different @AllocatedDate for the day column, you can do it this way: CREATE PROCEDURE [dbo].[MyProcedure] @AllocatedDate date AS BEGIN SET NOCOUNT ON; WHERE [TempTable].[Ticket No] = CASE WHEN [Schedule].[Allocated Date] = @AllocatedDate THEN @AllocatedTicketNo ELSE [Schedule].AllocatedDate END ... Set in August 1944, the game simulates the fighting between Allied and German forces on the western side of the Normandy invasion beachhead during Operation Goodwood, from the breakout at Saint Lo to the eventual liberation of Paris. The game features soldiers from numerous armies – among them American, British, Canadian, Polish, French, German, Soviet, Finnish and Norwegian – as well as those from countries formerly part of Nazi Germany and the Italian Social Republic. Combat Mission Normandy includes a free combat flight sim editor that allows players to simulate aircraft in the game. Unlike previous games in the series, Combat Mission Normandy 2.0 is fully compatible with the third-person, motion-controlled CMB: Naval Battles game engine. Editor Combat Mission Normandy v2.0 consists of two parts, the game and the editor. The game Combat Mission Normandy v2.0 is a turn-based wargame with hex-based grids and a primarily movement-based game system. Combat Mission Normandy allows the player to simulate formations and manoeuvres at the platoon level, with orders given by AI support personnel. At this level a single platoon controls a complete company, with orders issued by company, then battalion, then corps level commands. The game includes a number of army characteristics such as formations, equipment, initial platoons and company characteristics, in addition to several smaller individual characteristics. The editor Combat Mission Normandy v2.0 includes a free combat flight editor with roughly 1000 presets. References External links Official website Official 3ef4e8ef8d
