Ikisugi! M Lesson (?? ????! M???? ) is a Japanese eroge game for Windows. You can play Ikisugi! M Lesson as a beginner game or as a experienced gamer. The game is rated b (18+) with an expected length of 11 hours. You can also read the last episodes' adventures after the completion of the game. The last episode will also contains commentary.

Hide Synopsis Mrs Mizue runs a high school in the city of Kagoshima. It is the year 2009. One day when she sends some students out to gather water, she becomes quite upset. While Mizue becomes a bit sad, the school suddenly gets attacked by a vast demonic force. In the midst of the chaos, Mizue is surprised to see Minami's legs covered in blood. The mangaka hid their injuries; Minami did not want to reveal her injuries to the public. Minami's hand was hurt as well and has to wrap it up in her shirt. The demons have gotten inside the school, and all the students are being fought by them. Minami is rescued when her hand gets healed. Due to the authority of Mizue, Minami decides to stay in the school. Minami slowly falls in love with her new-found friend, the strong-jawed Nozomu. Mizue becomes friends with Minami, and she lets her share her room in the school. Mizue tells Minami that she was raised as a boy in the past. Mizue has a different personality than Nozomu and that she loves Minami very much. Minami's feelings for Nozomu soon intensifies. Minami becomes attracted to Mizeue. Minami's hand is getting worse and worse. Her friends decided to pick out a gift to let her know that they cared for her. Sone Shino (BlackSilver) suggested that Minami take a special course in the hospital. This is where all the students gather the information. The head honcho of the course, a fat lady named Hasegawa, promises Minami that she can get better if she takes the course. Back at the school, the demon that attacked the school has captured Mizue and Minami, along with everybody else. The new catch for Minami are two demons that are holding chains around their waist.
