De. Download. Hey guys, I just got my new E92
2.0T M Sport, but I didn't see any options in the
options menu that would allow me to change the
gear shift sound. I went to the Audi forums and
found this video, but my car is a 2011 2.0T. I
thought I saw something that said that the option
was only on the 2011 X5. Sorry if I'm not
making sense. I was reading about the change to
the "Sport Quattro" sound and the one I'd like is
the one from the 2011. I just want to know if it's
a plug in or it's an option. And if it is a plug in,
which one would be best suited for my car? I am
using "It's all about me" from Audi on my 93
2.8 and it sounds great! Hi! About the 10s
option of the e93/e92, it's very similar on the
C6, specially the rear part. It's the sound of the
old automatic. Same with the 8s and as you said
the 11s. About the sport quattro, it's available on

xf5 and xf6, but not on e89/92 Ok thanks for the info. You were right, it's the carmaker that decides what sound options we get. The Audi engineering team made the X5's different shift sounds. Well, on my 2013 it's the same, and on the 2011 is the other option, so I'll keep on checking to see what the next generation X5 looks like and hope they'll bring this sound option on the new X5. By the way, does anyone know the name of the option that is like the sport quattro that you put on your 93 2.8? I'm curious. If you're still not at your destination, please pull over and turn off your car so that no one is injured. I can see that this was a question you asked some time ago. I probably missed your reply. Anyway, regarding to my question about the sport quattro: it's the sport puddle sound that is exclusive to the 2011. You can't find it on xf4 or xf5. I have this option on my 2011, however my sound is routed to the 3ef4e8ef8d
