Newest Drivers Free Color Splash Maker is a lightweight software application built specifically for helping you enhance the quality of your images by applying various special effects. The layout is intuitive enough to be configured without having to consult a help manual or watch online tutorials. The program gives you the possibility to upload files in the working environment using the built-in browse function, so you cannot rely on “drag and drop” operations. It offers support for the JPEG or PNG file format, and lets you select between various special effects, such as Blur, Grayscale, Invert, Mosaic, Red, Blue, or Green. What’s more, you are allowed to zoom in or out, switch to a full screen mode for a better focus on your work, and undo your actions. Last but not least, you can use a brush, pick the brush size, and save the edited image to JPG file format. Additionally, when it comes to exporting options, you can specify the image size, keep aspect ratio, and publish the picture on the official website of the utility, provided that you have an account. On the downside, you are not allowed to rotate or flip the pictures, crop images, and adjust the levels of brightness, contrast, or saturation, just to name a few suggestions. Since it doesn’t require much computer knowledge to set up the dedicated parameters, even rookies can master the entire process with minimum effort. During our testing we have noticed that Free Color Splash Maker carries out a task quickly, provides very good output results, and no errors showed up throughout the entire process. It doesn’t eat up a lot of CPU and memory, so the overall performance of the computer is not hampered. To sum things up, Free Color Splash Maker
