It's pretty bare-bones: it dumps out your browser's source code and line numbers of the selection in the current tab. Obviously, it's not very sophisticated, but it's immensely useful, especially when a page isn't loading for some reason. Can't wait for the day that you don't need a debugger :) Check it out here: <https://github.com/sourcemap/firefox-debug> ===== sjs382 I'm looking for an editor that does
