Presto! PageManager Pro

Presto! PageManager Pro is a piece of software that allows users not only to easily browse folders and view their contents, but also to open or edit files in different applications, and even to share them online. An intuitive interface The software comes with a straightforward interface, delivering looks similar to those of Windows Explorer. However, it also provides users with fast access to various functions, courtesy of two rows of buttons, placed at the top and bottom of its workspace. Thus, the tool makes it easy for users to launch editing applications, preview image or PDF files, split or merge multiple documents, and even print them. Easily share files online The application has been designed to provide users with the possibility to share files with the help of NetGroup, which also allows them to manage file transfers and recipients. With the help of this tool, users can automatically send files to a wide range of applications, such as Paint, NotePad, or Internet Explorer. Moreover, it can also be used for OCR recognition operations, and for scanning PDF files and images. Edit images or documents With the help of Presto! PageManager Pro, users can also edit images or documents at ease, courtesy of various tool that is integrates, such as EZPicture. The software can convert files to PDF or XPS, and can also be used to convert images to different formats. During our testing, we noticed that the program does not require a large amount of system resources in order to function properly, and that it also delivers stable operations. All in all, Presto! PageManager Pro is an easy-to-use file management application that provides users with the possibility to easily convert, merge, split, or print images, PDF files and documents, directly from its main window. Presto! PageManager Pro Download Presto! PageManager Pro Download is an easy-to-use file management application that provides users with the possibility to easily convert, merge, split, or print images, PDF files and documents, directly from its main window.
